

DATA AS A FOUNDATION

Quantitative and qualitative data should provide the foundation for informed, strategic, collaborative community engagement, action, and advocacy. VCR applies an equity lens in the selection of indicators and data collection, analysis, presentation, and dissemination.

OUR SERVICES

Children's Data Center

This interactive online tool serves as your go-to place to find data on child and family well-being in the St. Louis region.

The CMSL Data Book

The Children of Metropolitan St. Louis (CMSL) data book contains over 40 indicators of child well-being (i.e. poverty, income, unemployment) and illustrates the inequities in child well-being outcomes found throughout the St. Louis region. Recently, we added community perspective and voice throughout the book. We offer this resource to the community free of charge.

Additional Services

We are here to support you with customized data requests, community assessment reports, and more.

Working alongside the community...

www.visionforchildren.org

Vision for Children at Risk (VCR) envisions a community that values and supports the well-being of children and families, where the neighborhood they live in does not determine their future.

DATA and RESEARCH

A core focus area of VCR:
featuring our Children's Data
Center & CMSL Data Book

THE CHILDREN'S DATA CENTER

Your go-to place to find data on child and family well-being in the St. Louis region.

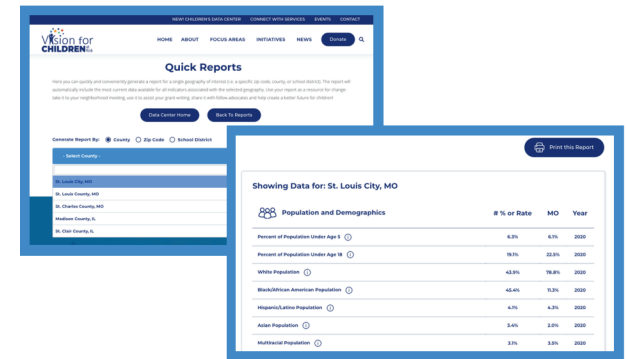

Offering easily accessible data that focuses attention on inequities in child well-being outcomes.

Helping us all use data to drive change, creating a better future for children.

QUICK & CUSTOMIZED REPORTS

Users can produce "Quick Reports" for a **snapshot** of the zip code, county, or school district of interest, or customized reports that include multiple indicators and geographies.

REGIONAL DATA

This engaging, interactive data center currently contains data on **6 counties, 142 zip codes, and over 60 school districts** in the St. Louis region.

EASY TO NAVIGATE

Users can explore the data through a guided **step-by-step process**, selecting an indicator and geographies they are most interested in.

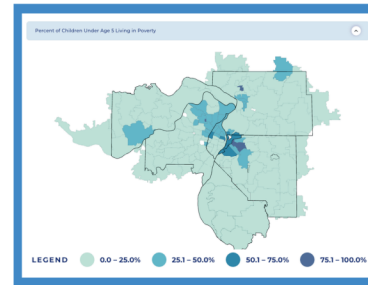

COMPREHENSIVE DATA

Includes 6 fundamental need areas and more than **40 indicators** related to child well-being from cradle to career.

INTERACTIVE

Results can be viewed in several ways including interactive maps that help users better **visualize and understand the story the data is telling.**

We invite you to explore the Children's Data Center today!

ABOUT VISION FOR CHILDREN AT RISK

VCR promotes the well-being of children, youth, and their families, with a primary focus on those impacted by socioeconomic risk and racial inequity. We do this by:

- **Informing** the community with data and research,
- Promoting **collaborative** action,
- **Engaging** and supporting families, &
- **Advocating** for child well-being through policy and community investment.
